THE FRUIT

Round, asymmetric shape, with medium-sunken apex, not so marked surface ridge, and large deep pedicel cavity; intense red skin on 100% of its surface. White flesh, with anthocyanin colour, which is particularly intense near the stone, with a medium-fine non-fibrous texture and high consistency. Good sweet taste. Clingstone variety, with small stone.

POSITIVE FEATURES

- size;
- taste;
- fruit shape and colour.

WEAK POINTS

- slight rustiness on fruits
- asymmetric shape
